

# Dominant receives Environmental Certification

Dominant® is now proudly certified with the ISO 14001 Environmental Management System. This is a certification of international standards stating that Dominant complies with all requirements of the ISO 14001 including the development, manufacture, storage and dispatch of cleaning and sanitation chemicals and personal care products.

This environmental management system is made up of a set of rules and regulations that define how our company interacts with the environment across all aspects of the business. The management system is built up of plans, processes, records, and policies that all align with Dominant business processes. As taking care for the environment is vital to our brand we follow specific guidelines and processes within our business that focus on:

- Sustainability
- Preventing Pollution
- Minimising our Environmental Footprint

These apply to all aspects of the business. Examples include:

## Resourceful Waste and Energy Management

This includes packaging and chemical waste recycling, reducing packaging materials by producing highly concentrated products, eliminating product spills entering the stormwater system with bunding of entire factory site, and using external waste management services.

## Reporting and Monitoring

Dominant reports to multiple government bodies on our businesses environmental impact, including the Environmental Protection Agency, National Pollution Inventory and SA Water Trade Waste Authorisation. We are also a member of the Australian Packaging Covenant which aims to reduce the harmful impact of packaging on the Australian environment.

All elements within the Environmental Management System allow Dominant to confidently maintain the highest standard of environmentally conscious processes throughout the business.

The Dominant brand is also certified with:

- HACCP
- ISO 22000 – Food Safety Management System
- ISO 9001:2015

These certifications ensure that Dominant meets or exceeds global standards, allowing you to have confidence in hygiene and safety with all Dominant products.
